

THE U.S. SENATE IS ON THE VERGE OF VOTING TO LET RECKLESS GUN DEALERS GET AWAY WITH MURDER.

Quietly sneaking through the United States Senate is an outrageous bill which will slam the courthouse door shut on countless victims of gun crimes.

It will deny the families of the DC sniper victims their day in court and any hope of justice for their loss.

Believe it or not this bill, the National Rifle Association's top priority, actually immunizes negligent gun dealers and gun makers against lawsuits. It is a "Stay Out of Court Free" pass, exempting the gun industry from legal rules that bind every other industry in America.

Fifty-four Senators have lent their good names to this bad bill. They must know better.

They must know there are gun dealers who have repeatedly sold guns to people who kill. And this bill will give them immunity.

They must know that the dealer who "lost" the assault rifle used in all the DC sniper shootings also sold guns tied to at least 52 other gun crimes including homicides and kidnappings. And this bill will give him immunity.

They must know that only a tiny percentage of negligent dealers are ever prosecuted or even fined.

They must know that gun makers continue to sell guns to dealers who have been indicted for criminal conduct.

Over the next several weeks we're going to make sure those 54 Senators do know these facts.

And if we can't persuade them to erase their names from this bill, we'll make sure they hear from the families of the DC sniper victims, who should be more persuasive.

Good gun dealers don't need immunity. Bad gun dealers don't deserve it.

Help us stop this bill.
